

ACT Masters Hockey

Nominations Now Open - HA Masters Men's Operational Group

ACT Masters Hockey Members,

As part of Hockey Australia's announcement this week of a new Committee structure, a call for nominations has been made for membership of the Men's Operational Group.

Following findings from a review earlier this year into the management of Masters Hockey, it revealed a host of changes that would positively impact the Masters Hockey group and demographic.

HA has actioned many of these recommendations, most notably that Masters Hockey will now be governed by a strategic group known as the HA Masters Committee (HAMC).

The HAMC consists of nine people who will be responsible for overall direction, planning and policy implementation and development.

This committee will be supported by two distinct Operational Groups (Men's and Women's) that will be responsible for the day to day running of the Masters program.

The attached Terms of Reference provides an outline of the Operational Group structure, roles and responsibilities.

If you would like to be part of this exciting new structure please complete the attached Nomination Form and follow the instructions for submission.

Nominations close at HA on Friday 17 September 2021.
